# TERRI STEWART

# PROJECT MANAGER

I’m a Project Manager with an extensive background in marketing, hospitality, and entertainment, now expanding my expertise in IT support, cybersecurity, and UI/UX design & development. I bridge strategy, creativity, and technology to organize teams, streamline workflows, and guide projects from concept to execution. My goal is to create intuitive, impactful digital experiences that turn ideas into meaningful, user-focused solutions.

# GEORGE CLINKSCALES JR.

# DEVELOPER

I'm a full-stack and iOS developer. I work directly with clients to provide digital solutions that help boost business efficiency. In addition to offering ongoing maintenance and feature development, I've built payment platforms, booking systems, custom marketing sites and mobile apps with in-app purchases for small businesses.

Portfolio

# RYON “RY” BALDWIN-SMITH

## DEVELOPER

As a software developer, UX/UI designer, and founder of Vypr LLC, I specialize in turning complex ideas and operational challenges into intuitive digital experiences. My work spans web and mobile development, product strategy, automation, and user-centered design, allowing me to build solutions that are both visually engaging and purposeful. I merge design, code, and human-centered thinking to craft digital experiences that feel as intuitive as they are impactful. Whether I’m building seamless digital products, designing intuitive user interfaces, or experimenting with NFC tags for automation projects, I’m always searching for ways to make technology more engaging and accessible.

# TAHA ALKADMI

# DESIGNER

I’m a creative and team oriented designer who brings creativity to life. With a background in computer science, I have experience with developing websites and apps for mobile devices. I find enjoyment in combining creativity and technology to make a design that is easy and enjoyable for everyone to use.

# RAFAEL “RAF” BLANCO

## DESIGNER

With over 20 years of experience across academia, manufacturing, and corporate environments, I specialize in technical training and process optimization. My approach is rooted in a strong analytical foundation, always looking for ways to streamline workflows, eliminate inefficiencies, and make complex systems easier to understand.

While I am primarily focused on design at the Academy, my versatile background allows me to easily pivot to to assist with coding or stepping up to help manage the project when needed. I look forward to combining my team’s strengths to build something efficient, functional, and impactful.

# WE LOOK FORWARD TO BRINGING YOUR VISION TO LIFE.
